ForestFinest Consulting (FFC) is a leading international consulting firm. With our 30+ team members in ten countries we support companies, investors and cooperatives in the development of sustainable agricultural and forestry projects. The core activities of FFC are the conceptualization, management and certification of land use projects as well as carbon trading. Further, FFC offers companies effective solutions for climate protection. Our consultants develop individual climate protection strategies which include the calculation of greenhouse gas emissions, recommendations on how to reduce GHG and/or advice on insetting/offsetting through certified climate protection projects.

For our constantly growing team, we are seeking a
